SPEAKING & MODERATION

Most moderators manage panels.

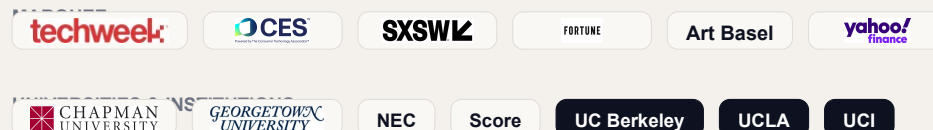

Nitin makes them matter.

For founder summits, investor rooms, conferences, and universities where the conversation cannot afford to be average. Operator judgment, room control, and 500+ conversations of pattern recognition - applied to every session.

WHY ORGANIZERS BRING ME IN

- Your panel will not feel like a panel
- Speakers pushed past safe talking points
- Questions live to the room - not scripted
- Speakers briefed and better prepared upfront
- Tighter pacing, sharper energy, cleaner arc
- Content and quotes that live beyond the stage
